Disclosures and Forward-Looking Statements

The information contained in this earnings presentation should be viewed in conjunction with the earnings conference call of CION Investment Corporation (NYSE: CION) (“CION” or the “Company”) held on Thursday, May 9, 2024 as well as the Company’s Quarterly Report on Form 10-Q for the quarter ended March 31, 2024 that was filed with the Securities and Exchange Commission (the “SEC”) on May 9, 2024. The information contained herein may not be used, reproduced or distributed to others, in whole or in part, for any other purpose without the prior written consent of the Company.

This earnings presentation may contain forward-looking statements that involve substantial risks and uncertainties, including the impact of inflation, high interest rates and the risk of recession on the business, future operating results, access to capital and liquidity of the Company and its portfolio companies. You can identify these statements by the use of forward-looking terminology such as “may,” “will,” “should,” “expect,” “anticipate,” “project,” “target,” “estimate,” “intend,” “continue,” or “believe” or the negatives thereof or other variations thereon or comparable terminology, including references to assumptions, forecasts of future results, shareholder diversification, institutional research coverage and availability and access to capital. You should read statements that contain these words carefully because they discuss the Company’s plans, strategies, prospects and expectations concerning its business, operating results, financial condition and other similar matters. These statements represent the Company’s belief regarding future events that, by their nature, are uncertain and outside of the Company’s control, such as the price at which the Company’s shares of common stock will trade on the NYSE. Any forward-looking statement made by the Company in this earnings presentation speaks only as of the date on which the Company makes it. Factors or events that could cause the Company’s actual results to differ, possibly materially from its expectations, include, but are not limited to, the risks, uncertainties and other factors the Company identifies in the sections entitled “Risk Factors” and “Forward-Looking Statements” in filings the Company makes with the SEC, and it is not possible for the Company to predict or identify all of them. The Company undertakes no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

This earnings presentation does not constitute a prospectus and should under no circumstances be understood as an offer to sell or the solicitation of an offer to buy the Company’s common stock or any other securities nor will there be any sale of common stock or any other securities referred to in this earnings presentation in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to the registration or qualification under the securities laws of such state or jurisdiction.

Nothing in these materials should be construed as a recommendation to invest in any securities that may be issued by the Company or as legal, accounting or tax advice. An investment in securities of the type described herein presents certain risks. The Company is managed by CION Investment Management, LLC, an affiliate of the Company. Nothing contained herein shall be relied upon as a promise or representation whether as to past or future performance.

The information contained in this earnings presentation is summary information that is intended to be considered in the context of other public announcements that the Company may make, by press release or otherwise, from time to time. The Company undertakes no duty or obligation to publicly update or revise the information contained in this earnings presentation, except as required by law. These materials contain information about the Company, certain of its personnel and affiliates and its historical performance. You should not view information related to past performance of the Company as indicative of its future results, the achievement of which cannot be assured.

Past performance does not guarantee future results, which may vary. The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur.

Internal Investment Risk Rating Definitions

Rating Definition

- 1 Indicates the least amount of risk to our initial cost basis.
The trends and risk factors for this investment since origination or acquisition are generally favorable, which may include the performance of the portfolio company or a potential exit.
- 2 Indicates a level of risk to our initial cost basis that is similar to the risk to our initial cost basis at the time of origination or acquisition.
This portfolio company is generally performing in accordance with our analysis of its business and the full return of principal and interest or dividend is expected.
- 3 **Indicates that the risk to our ability to recoup the cost of such investment has increased since origination or acquisition, but full return of principal and interest or dividend is expected. A portfolio company with an investment rating of 3 requires closer monitoring.**
- 4 Indicates that the risk to our ability to recoup the cost of such investment has increased significantly since origination or acquisition, including as a result of factors such as declining performance and noncompliance with debt covenants.
We expect some loss of interest, dividend or capital appreciation, but still expect an overall positive internal rate of return on the investment.
- 5 Indicates that the risk to our ability to recoup the cost of such investment has increased materially since origination or acquisition and the portfolio company likely has materially declining performance.
Loss of interest or dividend and some loss of principal investment is expected, which would result in an overall negative internal rate of return on the investment.
